Course / Degree	School / University	Grade / Score	Year
B.Tech(Information technology)	Velalar College of engineering and technology	8.97*	2024
HSLC	K.S.R. matriculation hr.sec.school	469	2020
SSLC	Avvai K.S.R. matriculation school	464	2018

SKILLS

- C
- C++
- Python
- Flutter
- Html
- Java
- Javascript

PROJECTS

- **One Point Student Verification through mobile application**
This project is one of the outcomes of Smart India Hackathon 2021 .My problem statement was given by AICTE.My project is selected as the finalist .This project is to eliminate the work process done by many MNCs, like no objection certificate given by the institution where the candidate studied previously, to recruit the students.
- **Image editor**
In this project,we can edit the image from both gallery and cloud .The image is stored in two instances.When there is any changes in the image or when we edit ,We can compare it with the original image which helps to version control of the image.The main objective of the project is to enhance the version control technology.This problem statement was provided by vortex hackathon conducted by NIT Trichy.
- **Budget Planner**
In this project,we can manage our budget and expenses in easy manner .It is very easy to use as we can keep up to date our daily expenses and transaction details with bill of them. We can also get the overall report of the monthly expenses and transaction done. This project is one of the outcome project that we submitted as mini project in the college.

INTERESTS

- Mobile app development
- Java development
